

Nursing Careers

Become part of a team of professionals who are helping to change the face of Nursing! The Nursing Departments of Somerset Hospital offer a wide variety of opportunities for nurses preparing to enter the workforce. Here, our focus is on the individual – recognized for the knowledge, skill and compassion they bring to our patients.

OPPORTUNITIES

Graduate nurses have the ability to work on our Med/Surg, Telemetry, Emergency Services and Behavioral Health Units. These nursing units offer a variety of scheduling options allowing the nurse to balance their work schedule with their personal and family schedules. Although many nursing units require RN experience, after completing the requirements for the position, nurses may apply for a transfer into one of our Specialty Units: Surgical Services-Same Day Services, Post Anesthesia Care, Home Health, Hospice, Critical Care Unit, and the Cardiac Cath Lab along with several outpatient related registered nursing areas.

Scheduling options for full time nurses working 40 hours per week include 3 (12) hour shifts per week. Nurses will enjoy every other weekend off on the inpatient nursing units.

A POSITIVE EXPERIENCE

Nurses who join our staff will complete an orientation period with a preceptor, who has been carefully selected to match the characteristics of the nurse. Our goal is to promote a positive learning experience and to assist each new employee by providing a professional staff member to assist with interpersonal problem-solving skills and provide direction regarding the nursing unit. Although a growing center for health, Somerset Hospital is committed to serving the community needs while maintaining a family-oriented atmosphere. We look forward to speaking with you and answering any questions that you might have.

THE HOSPITAL

Somerset Hospital is a state-licensed 120 bed facility which cares for approximately 4,500 inpatients and 147,000 outpatients annually. The Hospital currently has a complement of: 98 Acute Care Beds, 18 bed Behavioral Health Unit and 8 Critical Care Beds.

The nurses who provide care to our patients are what makes us unique.
