Welcome to Somerset Pain Management,

Your healthcare provider has requested a consultation with our office to discuss comprehensive pain management. Please review and complete all paperwork **PRIOR** to your scheduled appointment time. Allow for approximately 45 minutes to complete the paperwork as accurately as possible. Remember to bring the completed forms to your visit. PLEASE **DO NOT** MAIL COMPLETED PAPERWORK. Failure to complete your paperwork may result in a rescheduling of your appointment.

PLEASE ARRIVE 20 MINUTES PRIOR TO YOUR FIRST SCHEDULED APPOINTMENT TIME.

In addition to your complete paperwork please bring the following:

- Current Driver's license
- Current Insurance Card
- Current Medication list with dosage and frequency
- Additional X-rays, CT scans, or MRI reports (*only if performed outside of Somerset Hospital*)

The initial patient consultation will include a detailed pain history, physical exam, review of available diagnostic material, and a discussion of possible treatment modalities.

Several treatment modalities will require specific diagnostic testing as well as a detailed discussion regarding possible risks, benefits, and reasonable alternatives. Furthermore, your insurance will require office visit documentation before most treatment plans can be approved. **As such, your initial visit will not include prescribing controlled medications or performing injections.**

Should you need to cancel or change your initial appointment please notify our office **at least 24 hours in advance**, otherwise your rescheduling status will be placed in review.

Should you have any questions please contact the office.
